LEAPS IS RESEARCH-BASED WITH BOTH JOINT AND INDEPENDENT STUDIES VALIDATING ITS EFFICACY;

**YES, LEAPS IS PROVEN SUCCESSFUL.**

Leaps assesses the specific areas of need of a student and then delivers a tailored (and included) online curriculum. Teachers, as well as campus and district-level administrators, can monitor the student with efficacy as the student's needs evolve through the growth and maturation process.

LEAPS HAS **PROVEN** EFFECTIVE IN URBAN SCHOOLS, SUBURBAN AND RURAL SCHOOLS WITH DIVERSE POPULATIONS REDUCING PROBLEM BEHAVIORS, INCREASING ATTENDANCE AND IMPROVING CLASSROOM PERFORMANCE.

# THE BOTTOM LINE

LEAPS CAN BEGIN TO CHANGE YOUR CLASSROOM CULTURE *IN MINUTES*.

It's as easy as it is impressive.

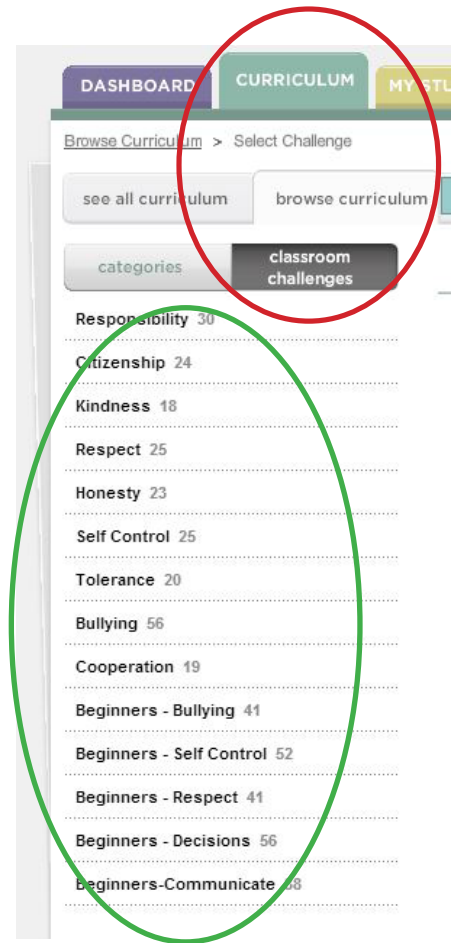

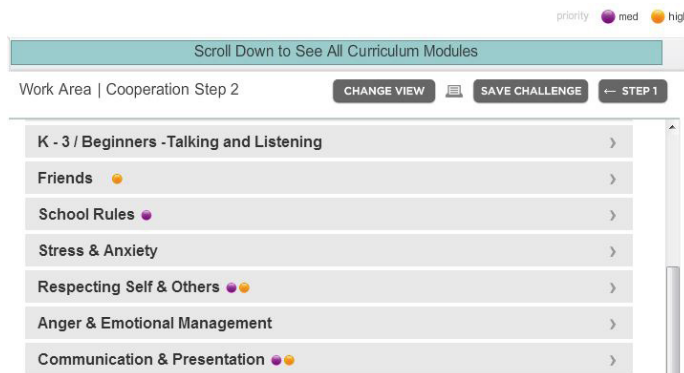

Once a teacher has registered for their Leaps license, they can immediately login and access a wealth of curriculum – more than 240 fully-vetted, ready-to-use lesson plans – in three different teaching modalities. After choosing a lesson plan and reviewing it briefly, the teacher is ready to walk into her classroom and start teaching, probably in less than 15 minutes.

Teachers also have the option of using the Leaps observational assessment tool, called Classroom Challenges, select a topic of interest or concern and answer three questions on that topic related specifically to what they observed with their students – on a *Sometimes* • *Never* • *Always* basis.

## ... AND VOILA!

Leaps then generates a selection of **READY TO TEACH** lessons based on YOUR CLASS, YOUR STUDENTS, YOUR NEEDS, with Medium and High priority indicators.

## COUNSELORS & INTERVENTIONISTS: prepare to be amazed...

The depth and reach of Leaps goes far beyond our “grab-n-go” Classroom Challenges. Individual and grouped assessments & progress monitoring allow for CUSTOM PREVENTION AND INTERVENTION SEL PROGRAMMING BASED ON SPECIFIC STUDENTS.
